Personal-Mentor I https://mp.weixin.qq.com/s/k7Dz4U0_G0LxN0-5XK-iHA

<https://mp.weixin.qq.com/s/Q1nrPBoLqBRHLv1cEifqrA>

Full stack developer

One-to-one personal experience sharing site connecting experienced senior schoolmates with the ones who need some guidance .

Used wxml,wxss,javascript,NodeJs ,Mongodb .

Dumb Dragon NFT | <https://www.dumbdragonz.com/#/index?lab=true>
front-end developer
A official site for dumb dragon NFT .

Avar official site | <https://avarlab.com/>
front-end developer
Official site for digital human start up company using ReactJs DIY digital human dressing

site | <https://aiuni.io/>
front-end developer
DIY digital human dressing site using ThreeJs

Leadership Experiences

Founder · PHD Studio

Jun 2020 - Jul 2021

During my university years, I founded a studio called PHD., which stands for passion, handwork, and dedication. Since we all get confused in our first year at university and need help from the experienced to assist us in finding jobs, studying further, taking certifications, etc., we developed an application that connects experienced senior schoolmates with younger ones. More than 1/3 of the school's students use the application. Moreover, we developed a social platform and some tools that got quite popular on campus, which brought us angel investment from the former CFO of TCL.
